

Statement of U.S. AbilityOne Commission Private Citizen Member Jeffrey Mittman

President Donald J. Trump [appointed](#) Jeffrey Mittman to the Commission effective August 7, 2025.

I am honored to serve a mission that is both vital and transformative – expanding employment opportunities for people who are blind or have significant disabilities. This mission is not only about providing jobs; it is about independence and economic empowerment for individuals who have historically faced barriers to employment.

I am firmly committed to advancing the Commission's objectives with transparency, accountability, and a relentless focus on results. I will advocate for the responsible and efficient use of our resources to ensure we are delivering maximum value to the Federal government, American taxpayers, and people across the nation who have disabilities and want to work.
