

Solutions

for Federal Customers

“[AbilityOne’s] well-established national network is a solid base of readily available personnel who are focused on meeting the customer’s needs.”

— Lori Donovan, Contracting Officer, U.S. Bureau of Census

AbilityOne: A Superior Procurement Solution

You need smart, reliable answers to your priority source needs—and a partner who supports you every step of the way. For 70 years, the AbilityOne Program has delivered fair market-priced products and services to the government, with professional contract management that saves you time and eliminates inconvenience.

AbilityOne leverages a national network of more than 600 nonprofit agencies employing more than 40,000 Americans who are blind or have other severe disabilities. AbilityOne employees are trained and supervised by these agencies, ensuring superior service while removing managerial and administrative burdens.

We can help you meet a variety of mandates—from priority source requirements to green initiatives—while providing thousands of people with real jobs and increased independence.

Government Supported—Professionally Managed

The AbilityOne Program is administered by the Committee for Purchase From People Who Are Blind or Severely Disabled (an independent federal agency) with support from National Industries for the Blind (NIB) and NISH-Creating Employment Opportunities for People with Severe Disabilities.

The AbilityOne team provides:

- Professional contract management
- Quality assurance programs
- Acquisition streamlining
- Creative solutions to customer needs
- Fair market pricing
- Business and production engineering services
- On-site technical assistance
- OSHA and EPA compliance

We are a critical part of the U.S. military industrial base, as well as a vital resource for a broad range of federal agencies. Because AbilityOne contracts are exempt from regular bidding requirements, RFP bidding and administration costs can be significantly reduced. Startup expenses and costly learning curves are eliminated while customer service and satisfaction become the highest priorities—with regular assessments that ensure your continued satisfaction. Our philosophy is that strong, long-term partnerships enable the most responsive and effective solutions. We are constantly engaged in making your contracts more cost-effective, more streamlined and more successful.

Social Responsibility Meets Fiscal Responsibility

Over 60 percent of people who are blind or have other severe disabilities are not employed. By enabling them to fulfill federal contract needs, your AbilityOne procurements not only provide meaningful work, but also make it possible for people with disabilities to contribute millions in tax revenue.

This is an able and motivated workforce, many of whom are getting the opportunity to develop a career for the first time. The result: reliable workers, who provide timely, quality service with low turnover rates. As the United States’ largest single source of employment for people who are blind or have other severe disabilities, the AbilityOne Program is a tested, proven provider and partner.

AbilityOne Services

Administrative Services

AbilityOne contractors provide a stable, reliable work force trained to support all your administrative needs.

- Office operations—full service copy centers, mailroom services
- Support staff—receptionists, mail clerks, accounting, medical records and general clerks
- Computer support services—data entry, programming, technical support and more
- Temporary services—through GSA's basic ordering agreement, we can perform any of these services on a temporary basis

Custodial Services

AbilityOne contractors clean millions of square feet of federal offices and military bases each year.

- Office cleaning from basic service to executive level
- Special services such as judges chambers, dining facilities, and secured areas
- Routine cleaning for base-wide projects
- Carpet care and stain removal
- Hard floor care, including stripping and recoating and daily maintenance

Document Management Services

AbilityOne contractors can manage the life cycle of your documents from creation and storage to hard copy destruction. Contractors currently operate more than 150 federal and military mail/business processing centers.

- Secure mail center operations
- National/multi-regional consolidated services
- Billing/processing centers
- Automated outbound mail and fulfillment
- Print shop operations
- Document conversion/scanning, digital mail
- Worker training, certification and security clearances

- Digitizing/microfilming
- Document output, duplicating, forms/publications distribution
- Records management
- Transcription
- Word processing
- Secure document destruction
- CD ROM replication
