PROGRAM

# Maximize Efficiencies, Streamline Operations

Increasingly, Federal customers are looking for customized, supply chain management solutions to maximize efficiencies and streamline operations at strategically located facilities nationwide. The AbilityOne Program has over 125 network partners with warehousing and distribution capabilities to fulfill your requirements virtually anywhere in the United States.

AbilityOne Program supply chain management solutions include warehousing and distribution, inventory control and integrity, and other related operations at contractor or customer-owned facilities, that rival industry leaders. The national AbilityOne Network has over two million square feet of accessible space, and we manage and deliver thousands of line items and more than \$200 million in inventory safely and on time every year.

Our range of supply chain management solutions includes:

- Inventory integrity management
- Warehousing, stockroom and distribution
- Kitting and light manufacturing
- Receiving, order filling and shipping
- Logistics information systems: ERP, WMS, TMS
- Insertion point management
- Transportation, packaging and recycling
- Reverse logistics, life cycle management
- Inventory replenishment
- Pick, pack and ship
- Repair, refurbish and test
- Planning, purchasing and forecasting
- Multi-regional/national warehousing and distribution capability
- Supply Chain Solutions Organization (SCSO) high performance metrics
- LEAN/Six-Sigma application capability

In addition, Supply Chain Management Services is on the Federal Supply Schedule allowing work to commence immediately.
